

K-LOVE is important to me, my family and millions of people. It is a safe family station full of encouragement and helpful family tips. With all the sex, violence and negative messages people get from other stations, this is one that would be devastating to lose. Do the right thing KEEP K-LOVE on the air. I support them monthly but I know there are many who can not. It is worth my money to help someone else and this station is a daily help to people.
